

CarbonNeutral®

CARBON OFFSET PROJECTS WE SUPPORT

In accordance with The CarbonNeutral Protocol we have selected offset projects through which all the unavoidable product emissions are compensated.

Bondhu Chula Stoves

Bangladesh

Bondhu Chula, a friendly stove, is designed to ensure more efficient and cleaner home cooking. As well as delivering emission reductions, the design reduces harmful indoor air pollution. Gold standard certified project.

The UPM Raflatac's CarbonNeutral® products are certified for the entire life cycle. While we continue to reduce our carbon footprint, we also compensate for the unavoidable product-related GHG emissions until the product's end-of-life. The certification was issued by Climate Impact Partners in accordance with The CarbonNeutral Protocol.

Credit portfolio as of September 2023. Offset projects are subject to change based on credit availability and usage.
